

**International Congress on Pulmonology and Respiratory Diseases**  
**July 21-22, 2026**  
**Vienna, Austria**

**DAY-1 (July 21)**

**08:00-08:30** Registrations

**08:30-09:00** Opening Remarks

**Plenary Session**

**09:00-09:30** *Vascular type Ehlers-Danlos syndrome with intra-abdominal hemorrhage due to ruptured hepatic aneurysm: A case report*  
**Dr. MASAOU TANAKA**, kayma medical university, Japan

**09:30-10:00** **TBA**

**10:00-10:30** **Group Photo**  
**Refreshment Break @ foyer**

**Keynote/Plenary Session**

**10:30-11:00** *Main Cardiac Histopathologic Alterations in the Acute Phase of Trypanosoma cruzi Infection in a Murine Model*  
**Prof. Paz María Salazar Schettino**, FACULTAD DE MEDICINA UNAM, Mexico

**11:00-11:30** *Advances in cell-based delivery of oncolytic viruses as therapy for lung cancer*  
**Prof. Ralph Meuwissen**, Ege University, Turkey

**Technical Session-I**

**11:30-11:55** *Improving Door-to-ECG Time in Acute Myocardial Infarction: A Closed-Loop Audit from a Tertiary Care Center in Peshawar*  
**Dr. Nazia Waheed**, South Infirmary Victoria University Hospital, Ireland

**11:55-12:20** *Modelling the Differentiation History of Fibrogenic Cells: A Rule-Based Computational Model of Fibrosis Progression and Reversion*  
**Matthieu Bouguéon**, 1 UCL Cancer Institute, United Kingdom

**12:20-12:45** *Vascular type Ehlers-Danlos syndrome with intra-abdominal hemorrhage due to ruptured hepatic aneurysm: A case report*  
**Dr. MASAOU TANAKA**, Wakayma medical university, Japan

**12:45-13:10** *Stroke in individuals with hypertrophic cardiomyopathy and sleep apnea*  
**Dr. Lin Chen**, Cardiovascular Center, School of Medicine, China

13:10- 14:00	<b>Lunch @ Restaurant</b>
<b>Technical Session-II</b>	
14:00-14:25	<i>Global Standardized Guardrails for Cardiovascular Digital Therapeutics</i> <b>Miss. Maria Palombini, IEEE, USA</b>
14:25-14:50	<i>Nursing knowledge in cardio-oncology: results of an international learning needs-assessment survey</i> <b>Miss. mary stuart, IWK Health Centre, Canada</b>
14:50- 15:15	<i>Oura ring in cardiopulmonary monitoring and disease detection</i> <b>Mr. Kaiden Lin, The Masters University, USA</b>
15:15-15:40	<i>Global Standardized Guardrails for Cardiovascular Digital Therapeutics</i> <b>Prof. Jan Czerwinski, VERT Scientific Committee, switzerland</b>
15:40-16:05	<i>Global Standardized Guardrails for Cardiovascular Digital Therapeutics</i> <b>Miss. Maria Palombini, IEEE, USA</b>
16:05-16:35	<b>Refreshment Break @ foyer</b>
<b>Poster Presentation</b>	
	<i>Altered p53 Gene Expression in Coronary Artery Disease Patients with Dyslipidemia: Implications for Atherogenesis</i> <b>Dr. Lesia Savchenko, Institute of Metabolic and Cardiovascular Diseases (I2MC), France</b>
	<i>Prognostic Significance of Beat-to-Beat T-Wave Amplitude Variability in Cardiovascular Diseases: A Narrative Review</i> <b>Prof. Eiichi Watanabe, Fujita Health University, Japan</b>
	<i>Initial Shockable Rhythm as a Key Predictor of Favorable Outcomes in OHCA Patients without ST Elevation Undergoing PCI</i> <b>Prof. Hyun Wook Ryoo, Kyungpook National University Hospital, South-korea</b>
<b>Technical Session-III</b>	
16:35-17:00	<i>Environmental radon exposure and COVID-19 mortality during the pre-vaccination period: potential epidemiological links and its implications</i> <b>Dr. Stephanie Melinda Jonathan, Gilles Maignant, University cote d'azur , France</b>
17:00-17:25	<i>Ozempic's positive and negative impact on the heart</i> <b>Miss. Julianne Lin, The Master's University, USA</b>
17:25-17:50	<i>Recent Developments in Cardiac surgery in Zimbabwe</i> <b>Simukayi Percy Machawira, Parirenyatwa Hospital, Harare, Zimbabwe</b>
17:50-18:15	<b>Slot Available</b>

<b>Day-1 Concludes</b>	
<b>Pannel Discussions</b>	
<b>DAY-2 (July 22)</b>	
<b>Technical Session-I</b>	
09:00-09:25	<i>Transthyretin cardiac (TTR) amyloidosis, polyneuropathy and dementia</i>
	<b>Rodica Elena Petrea</b> , California Touro University, USA
09:25-09:50	<i>Arrhythmogenic risk of cenobamate in patients with myocardial lesions by inhibition of Nav1.5 and Cav1.2 ion channels</i>
	<b>Bogdan Amuzescu</b> , University of Bucharest, Romania
09:50-10:15	<i>When the Stream Refuses to Flow: Use of Three Paclitaxel-Releasing DCB Balloons for the Treatment of an Occluded RCA in an 81-Year-Old Patient With STEMI</i>
	<b>Magdalena Kwiatkowska</b> , Medical University of Warsaw, Poland
10:15-10:35	<b>Group Photo</b>
	<b>Refreshment Break @ foyer</b>
10:35-11:00	<i>Molecular mechanisms of cardiovascular complications in intermittent hypoxia</i>
	<b>Prof. Shin Takasawa</b> , Nara Medical University, Japan
11:00-11:25	<i>Emerging Consensus in Corticosteroid Therapy for Severe Community-Acquired Pneumonia: A Two-Decade Evidence Review</i>
	<b>Dr. Alejandro chapa-rodriguez</b> , cape fear valley medical center, USA
11:25-11:50	<i>Utility of Breath-Holding Time in Monitoring Acute Neuromuscular Respiratory Failure in Bulbar-Onset Myasthenia Gravis: A Case Report</i>
	<b>Dr. Saboor Zulfiqar</b> , University Hospitals Birmingham NHS Trust, UK
11:50-12:15	<i>Emerging Consensus in Corticosteroid Therapy for Severe Community-Acquired Pneumonia: A Two-Decade Evidence Review</i>
	<b>Dr. Panagiota</b> , MENARINI HELLAS, Greece
12:15-12:40	<i>Outcomes of a Virtual 10-Week COVID-19 and Psychosis Program in an HMO:</i>
	<b>Sallee &amp; Renwick</b> , Kaiser Permanente, North-America
12:40-13:05	<i>Eliminating Hypoxia During Paralytic Intubation: A Progressive Animal Series</i>
	<b>Dr. Chris Salvino</b> , Saint Francis Health System, USA
13:05- 14:00	<b>Lunch @ Restaurant</b>

<b>Technical Session-II</b>	
14:00- 14:25	<i>Hypertrophic Pulmonary Osteoarthropathy as an Initial Manifestation of Lung Cancer</i>
	<b>Sarra K Mohamed Ahmed</b> , Walsall healthcare NHs trust, UK
14:25-14:50	<i>Study risk factors, clinical profile, and outcome in hospitalized COVID-19 geriatric patients</i>
	<b>Pankaj sahu</b> , Salisbury NHS foundation trust, UK
15:35-16:00	<b>Slot Available</b>
16:00-16:25	<b>Slot Available</b>
16:00-16:20	<i>A Multimodality Imaging Evaluation of a Huge Postsurgical Cardiac Pseudoaneurysm</i>
	<b>Dr. Flavia Nicoli</b> , Humanitas Gavazzeni, Italy
16:40-17:00	<i>Analysis of the Determinants of Alcohol Consumption and Expenditure in Ecuador: An Econometric Analysis</i>
	<b>Prof. Ricardo Yajamín-Villamarín</b> , Value Health Economics Group, Ecuador
16:25-16:50	<i>Asymptomatic functional biomarkers of vascular stiffness may contribute to increasing the effectiveness of primordial prevention of arterial hypertension.</i>
	<b>Victor Nicolaevich Dorogovtsev</b> , Federal Research and Clinical Centery, Russia
16:50-17:15	<b>Slot Available</b>
<b>Closing remarks</b>
