

Day-2 October 27, 2026	
Scientific Session - III	
Session Chairs	
10:00 - 10:25	Growth state-dependent effects of endothelial signaling by docosaheanoic acid
	Shiqi Huang , University of Manitoba, Winnipeg, Canada
10:25 - 10:50	Extracellular Vesicle Mediated Suppression of Liver Regeneration Exposes a Fundamental Revision to the Chalone Concept
	Vasily A. Yakovlev , Virginia Commonwealth University, USA
10:50 - 11:15	Proteomics of neurodegenerative diseases: a focus on potential non-invasive peripheral biomarkers
	Cristina Contini , University of Cagliari, Italy
11:15 - 11:40	Taurine effects on gene expression in cultured peripheral blood mononuclear cells and cartilage explants from patients with end-stage rheumatoid arthritis
	Elena Tchetina , Federal State Budgetary Scientific Institution Research Institute of Rheumatology named after V.A. Nasonova, Russia
11:40 - 12:05	Implementation of compliant cGMP cell production infrastructure: from zero to a one-stop-shop
	Tatyana Matveeva , Mass General Hospital, USA
12:05 - 12:30	p53 at the crossroads of amino acid metabolism, adaptive stress response programs, and cancer
	Beata Schlichtholz , Medical University of Gdańsk, Poland
12: 30- 12:55	Slot Available

Lunch @ 12:55 - 14:00	
14:00 - 14:25	Slot Available
14:25 - 14:50	Slot Available
14:50 - 15:15	Slot Available
15:15 - 15:40	Slot Available
15:40 - 16:05	Slot Available
Break @ 16:05 - 16: 20	
Conference Concludes
